## **Make: Technology on Your Time, Vol. 2** Mark Frauenfelder

If you like to tweak, disassemble, re-create, and invent cool new uses for technology, you'll love *MAKE* our new quarterly publication for the inquisitive do-it-yourselfer.

Every issue is packed with projects to help you make the most of all the technology in your life. Everything from home entertainment systems, to laptops, to a host of PDAs is fair game. If there's a way to hack it, tweak it, bend it, or remix it, you will find out about it in *MAKE*.

This isn't another gadget magazine. *MAKE* focuses on cool things you can do to make technology work the way you want it to. The publication is inspired by our bestselling Hacks series books but with a twist. *MAKE* is a mook (rhymes with book). We've combined the excitement, unexpectedness, and visual appeal of a magazine with the permanence and in-depth instructiveness of a how-to book.

Whether you're a geek or hacker who delights in creating new uses for technology, or a Saturday afternoon tinkerer who loves to get his hands dirty, you'll keep every issue of *MAKE* on your bookshelf for years to come. This second issue, available in June 2005, includes 224 pages packed with tips and tricks, including:

- How to build an HDTV recorder and beat the Broadcast Flag
- Podcasting 101
- How to transform abandoned toys into environmental avengers
- R2-D1Y extreme bot builders at home
- The Atari2600 PC Project
- How to build a light-seeking robot from an old mouse
- A Maker Profile on Natalie Jeremijenko and lots more!

Every quarter, *MAKE* will contain a unique set of innovative ideas and creations for a variety of new technologies, including mobile devices, in-car computers, web services, digital media, wireless and home networking, and computer hardware.
