**Van De Graaff's Photographic Atlas for the Biology Laboratory** Byron J. Adams, John L. Crawley

This full-color photographic atlas provides clear photographs and drawings of tissues and organisms that closely match what students typically observe in the laboratory. Included in this edition are new illustrations, photographs, and photomicrographs as well as several plant and animal dissections. Taxonomic classifications have been updated to reflect advances in modern understanding of molecular phylogenies. Cladograms have been included to assist students in seeing the evolutionary changes of the different phyla. Loose-leaf, 3-hole drilled, full-color
