*Restoration Theatre and Crisis* is a seminal study of the drama of the Restoration, in particular that of the Popish Plot and Exclusion Crisis. This was the time of unprecedented political partisanship in the theatre. This book considers all the known plays of this period, including works by Dryden and Behn, in their historical context. It examines the complex ways in which the drama both reflected and intervened in the political process, at a time when the crisis fractured an already fragile post-interregnum consensus, and modern party political methods first began to develop.
