Training in Neurosurgery in the Countries of the EU: A Guide to Organize a Training Programme (Acta Neurochirurgica Supplement)

Training in Neurosurgery in the Countries of the EU: A Guide to Organize a Training Programme (Acta Neurochirurgica Supplement)

Agreed standards and guidelines are the heart and soul of improving the differing training systems and to harmonize neurosurgical training in the European countries. Such standards and guidelines have been laid down in the European Training Charter of the European Union of Medical Specialists and recently novellated.

This book, written by experienced neurosurgeons, offers all those concerned with neurosurgical training - trainers and trainees - practical advice to implement the above mentioned standards and recommendations. It has been written as a manual: "How to do it". It describes the tasks of a chairman (programme director), the tasks of the teaching staff, the organisation of a training curriculum, a rotation plan or a morbidity and mortality conference, the periodic progress evaluation, the course of an external audit and many more important topics. It contains a lot of practical tips, check lists and useful examples.

Well educated young colleagues offer "safe neurosurgery" to our patients.
