As a college student, I exactly feel bored to be able to read. If their teacher inquired them to go to the library as well as to make a summary for some book, they are complained. Just tiny students that have reading's heart and soul or real interest. They just do what the instructor wants, like asked to go to the library. They go to there but nothing is read really. Any student feels that reading is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. A book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise, word says, many ways to reach Chinese's country.
