Genesis Secrets Revealed: Primeval CK Quarterman

In *Genesis Secrets Revealed*, CK Quarterman draws back the curtain concealing some of life's greatest mysteries. He endeavors to be as precise as possible, and concentrates on conveying the picture in ways that it has never been presented. This book is written for the layperson, not the theologian. Genesis is essential to truly understanding the Bible. The entire Bible rests on the foundation of Genesis because it forms part of all subsequent inspiration. However, many in today's society consider this book as a collection of myths, but certainly not a record of what really happened.

CK Quarterman challenges that view and shows how the Cosmogony of Genesis is in direct contradiction to that of the world's creation myths. Genesis is an account of Divine creative actions, not that of myth, or the corruption of primitive truth handed down by tradition. Furthermore, Genesis is a book of origins; those of the universe, life, and man. It places man in his cosmic setting, shows his particular uniqueness, and begins to trace the flow of Divine revelation through space and time.

This book offers clear and concise answers to every major difficulty within Genesis, staunchly defending the authority of Scripture. In addition, it is noted for its clear exposition of Scripture, unique analysis, and readability. Ideally, it is also a model resource for personal Bible study.
