No hay pensamiento humanista que pueda prescindir de su base, el zócalo de la civilización mundial que edificaron los africanos en los albores de la humanidad; sin embargo, en la época moderna, las personas de tez más oscura no solamente están en la planta baja de la pirámide social, sino que el eurocentrismo dominante sigue marginando y ocultando los aportes africanos; la reunión de estos factores le da una calidad crítica excepcionalmente aguda al pensamiento negro. Se trata aquí de transmitir lo mejor del pensamiento negro cubano, que tiene valor ejemplar para cualquier país con presencia africana, porque es pensamiento ancestral, universal y arraigado en las luchas materiales por la subsistencia y la dignidad de todos. Con lo que los negros cubanos escriben sobre la «cuestión tabú» de la historia de Cuba descubrimos un pensamiento que desborda las páginas escritas, y es testimonio de independencia espiritual, valentía y creatividad colectivas; esta producción escrita no había sido recopilada hasta ahora, y no puede dejar de sacudir la inercia de las clases dominantes acostumbradas a no cuestionar los fundamentos ideológicos de su prepotencia.
