Global Librarianship (Books in Library and Information Science Series)

Global Librarianship (Books in Library and Information Science Series)

Providing new insights into the role of librarianship in an age of socioeconomic, environmental, and political transformation, Global Librarianship illustrates how globally networked environments promote and increase the sharing and dissemination of ideas, information, and solutions to obstacles affecting libraries. This reference showcases methods to tailor and build collections and technologies that continually support worldwide scholarly and business communities through the utilization of digital tools and electronic media. It illustrates breakthroughs in the organization, management, and dissemination of information to facilitate easy access to libraries anywhere in the world.
