Newton C. Braga

100 Circuitos com Temporizadores (Portuguese Edition) Newton C. Braga

Neste décimo volume da Série Banco de Circuitos, reunimos circuitos que o autor colecionou durante anos, trazendo uma seleção de 100 circuitos de temporizadores e minuterias, além de monoestáveis e circuitos assemelhados. Como nas demais edições, os circuitos foram atualizados de modo a utilizar componentes que podem ser obtidos no mercado em nossos dias. A maioria dos circuitos foi redesenhada com componentes modernos ou equivalentes. Assim, neste volume temos 100 circuitos de tempo, minuterias, monoestáveis, circuitos de retardo, que tanto podem operar de forma independente como fazendo parte de outros projetos. A finalidade deste livro, como os demais volumes da série, é a de proporcionar um meio de consulta fácil quando se necessitar de uma ideia de circuito para um projeto.
