Unacceptable Risk Jeanette Grey

She may learn to live for love...if vengeance doesn't kill her first.

Plix spends her lonely, gritty life trying to solve the mysteries her father left behind. Armed with a variety of cybernetic enhancements and a talent for getting into places she shouldn't be, she searches for clues to his murder—and who's responsible for poisoning her city.

Waking up on a street corner with her brain wiring fried to a crisp, she figures she must have gotten close this time. There's only one man she trusts to pull her back from the brink: a tuner who can retrieve the evidence hidden deep in the recesses of her mind. A man she dares not let too close to her heart.

When Edison downloads a secret SynDate schematic from Plix's burnt-out circuitry, he knows with dreadful finality that nothing—not even the fiery kiss he's been holding back for years—will stop her from pursuing her quest past the point of insanity.

All he can do, as he helps her plan her final mission, is ease her pain, watch her back...and hope one of them doesn't pay with their lives.

Warning: Contains a heroine intent on kicking ass and taking names, a high-tech dystopia, cybernetic body modifications, and emotionally charged, sensual romance.
