## **El conocimiento de lo social : I. Principios para pensar su complejidad (Alternativas al desarrollo) (Spanish Edition)** Enrique Luengo González

La sociedad humana es un ente vivo, complejo y en continua transformación. Para comprenderla es necesario evolucionar en el método del saber, actualizando los procedimientos para la investigación y la producción del conocimiento científico de lo humano colectivo. Este libro se encamina hacia esa dirección, pues el autor propone criterios orientadores o principios generativos que pueden servir de base para explorar nuevas vías metodológicas y epistemológicas que abran la puerta a un mejor entendimiento de la realidad sistémica, entrelazada y en movimiento que nos envuelve, así como para una eventual intervención en ella. Esta obra es lectura recomendada para investigadores, profesores y estudiantes de ciencias sociales, quienes pueden complementar los principios aquí expuestos con los que se presentan en El conocimiento de lo social II. El método estrategia, también perteneciente a esta colección.
