This double-sided map is waterproof and rip-proof because it is printed on synthetic paper. It will hold up come rain, wind, water and about anything a user might do to test its durability. Map size: 53 x 36 cm / 14" x 21", it is folded into a practical pocket format.

SIDE ONE: The map image of Kauai is generated by some fancy computer graphics so you can see the shores, the hills and the valleys exactly how they actually are. The roads are clearly shown. Each of the island's main points of interest are denoted as well. Places for diving, snorkeling, kayaking, hiking and exploring are highlighted and described. The ocean is depicted in beautiful turquoise colors all around Kauai, with descending colors representing the depths. Depth contours are included.

SIDE TWO: There are five main sections to side two. The first is the North Shore, including Hanalei, the second is the East Shore, including Kapaa and Lihui, the third is the South shore, including Poipu and Port Allen, the fourth is the islet of 702-foot high Lehua (at enlarged scale), off of the north end of Niihau, and the fifth is the overall view of Kauai and Niihau at 1:325,000. The captions describe dozens of snorkeling and scuba diving spots.

One of the greatest attractions on this map is the Hawaiian reef creatures guide on the face of the map. It depicts over 80 of the most common Hawaiian reef creatures, including everybody's favorites, the Humuhumu Nukunuku Apua'a, which is Hawaii's State Fish, and the Honu, or green sea turtle. Tourists take the map underwater to use for fish identification.
