A groundbreaking book that offers approaches for changing the hidden biases in the workplace

This is an eye-opening examination of the causes and dynamics of bias in the workplace, offering a psychological, political, and societal analysis of the actual cost of bias to the bottom line. The authors make the hurdles that women and minorities face in the workplace as personal to the reader as they are to those who face them. Giving Notice is filled with sensible approaches for solving the current imbalance and challenges us to rethink unconscious ideas about stereotypes and commonly accepted business practices.
