Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Controlling allergens in food is a matter of increasing importance for the food industry, especially in light of recent legislation. Effective handling of allergens depends on identifying allergenic ingredients, creating separate production lines for allergen-free products, and effective labelling to inform consumers about which products are safe to eat. Recent attention has also focused on novel methods to manage allergens in food, for example by reducing allergenicity through the prudent selection of raw food materials and improved processing techniques. This important collection provides a clear introduction to food allergens and allergy and offers a comprehensive review of current research contributing to safer food production with regard to allergens.

Part one discusses the diagnosis of offending foods and how allergens can affect the quality of life. Expanding on these fundamentals, part two reviews the effect of different methods of food processing on allergens and novel technologies which can reduce the potency of allergens or remove them altogether from foods. The final part of the book covers the key area of risk assessment and allergen management to achieve more uniform standards within the industry. Practical strategies to improve consumer acceptance of GM foods are also discussed.

With its distinguished editors and array of international contributors, Managing allergens in food is an essential reference for producers, manufacturers, retailers and all those wishing to improve safety in the food industry.

- Presents a cohesive summary of recent research into safer food production
- Discusses the effects of food processing on allergens
- An international team of editors

From reader reviews:

Rachel Chaney:

In this 21st millennium, people become competitive in each way. By being competitive now, people have to do something to make themselves survive, being in the middle of the crowded place and notice by simply surrounding. One thing that often many people have underestimated the idea for a while is reading. Yeah, by reading a book your ability to survive enhances then having a chance to stand up than others is high. For you who want to start reading the book, we give you this kind of *Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)* book as a starter and daily reading e-book. Why, because this book is greater than just a book.

Kevin Porter:

As people who live in the actual modern era should be up-to-date about what is going on or data even knowledge to make these people keep up with the era that is always changing and making progress. Some of you may not will probably update themselves by looking at books. It is a good choice to suit your needs but the problems coming to you actually is you don't know what one you should start with. This *Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)* is our recommendation to help you keep up with the world. Why, because a book serves what you want and need in this era.

Cynthia Ncaise:

Spent a free time for you to be a fun activity to perform! A lot of people spend their spare time with their family, or all their friends. Usually they undertake an activity like watching television, likely to beach, or picnic in the park. They actually do ditto every week. Do you feel it? Do you wish to do something different to fill your personal free time/ holiday? Could possibly be reading a book may be an option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to attempt to look for a book, maybe the book *Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)* can be an excellent book to read. Maybe it could be the best activity for you.

Charlsie Sprouse:

That guide can make you feel relaxed. That book *Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)* was multi-colored and of course has pictures around. As we know that book *Managing Allergens in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)* has many kinds or styles. Start from kids until adolescents. For example *Naruto* or *Detective Conan* you can read and feel that you are the character on there. Therefore not all of books usually are made to make you bored, any it can make you feel happy, fun and rest. Try to choose the best book for you and try to like reading that.
