**The Mangrove Tree: Planting Trees to Feed Families** Susan L. Roth, Cindy Trumbore

For a long time, the people of Hargigo, a village in the tiny African country of Eritrea, were living without enough food for themselves and their animals. The families were hungry, and their goats and sheep were hungry too. Then along came a scientist, Dr. Gordon Sato, who helped change their lives for the better. And it all started with some special trees.

*These are the trees,  
Mangrove trees,  
That were planted by the sea.*

With alternating verse and prose passages, *The Mangrove Tree* invites readers to discover how Dr. Sato's mangrove tree-planting project transformed an impoverished village into a self-sufficient community. This fascinating story of environmental innovation is a celebration of creativity, hard work, and ability of one man to make a positive difference in the lives of many.
