Speed Secrets 4: Engineering the Driver Ross Bentley

Ross Bentley. Race teams have discovered great benefits can be derived from "tuning" their driver to perform at his/her full potential. Thus, this book is for everyone who works with a driver: engineers, crew chiefs, team owners, mechanics, and the driver's parents. This unique book instructs the driver's support team how to prepare and communicate with the driver so the driver delivers the best performance in races, practice sessions, and off-track team functions. Written by veteran racer and driving coach Ross Bentley, this book helps the driver's support team devise effective approaches to "tuning" their driver. It will help them identify techniques that do and don't work with their specific driver. The result should be better communication and a driver who is "tuned" for success.
