Gilbert White

The Natural History of Selborne (Oxford World's Classics) Gilbert White

'I was much entertained last summer with a tame bat, which would take flies out of a person's hand.'

Gilbert White's *Natural History of Selborne* (1789) reveals a world of wonders in nature. Over a period of twenty years White describes in minute detail the behaviour of animals through the changing seasons in the rural Hampshire parish of Selborne. He notes everything from the habits of an eccentric tortoise to the mysteries of bird migration and animal reproduction, with the purpose of inspiring others to observe their own surroundings with the same pleasure and attention.

Written as a series of letters, White's book has all the immediacy of an exchange with friends, yet it is crafted with compelling literary skill. His gossipy correspondence has delighted readers from Charles Darwin to Virginia Woolf, and it has been read as a nostalgic evocation of a pastoral vision, a model for local studies of plants and animals, and a precursor to modern ecology. This new edition includes contemporary illustrations, a contextualizing introduction, and an appendix of literary responses to the book.

ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

So , for every you who want to start looking at as your good habit, it is possible to pick The Natural History of Selborne (Oxford World's Classics) become your personal starter.

Daryl Sanders:

As a college student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some book, they are complained. Just small students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to generally there but nothing reading really. Any students feel that looking at is not important, boring along with can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this The Natural History of Selborne (Oxford World's Classics) can make you

sense more interested to read.
