Designs, Methods and Practices for Research of Project Management Beverly Pasian

Project management as a discipline has experienced near-exponential growth in its application across the business and not-for-profit sectors. This original, authoritative guide provides both practitioner and student researchers with a complete guide to research practice on project management.

In *Designs, Methods and Practices for Research of Project Management*, Beverly Pasian has brought together original chapters from a veritable who's who of project management research including authors such as Harvey Maylor, Christophe Bredillet, Derek Walker, Miles Shepherd, Janice Thomas, Naomi Brookes and Darren Dalcher. The collection looks at research strategy, management, methodology, techniques as well as emerging topics such as social network analysis. The 38 chapters offer an international perspective with examples from a wide range of project management applications; engineering, construction, mega-projects, high-risk environments and social transformation.

Each chapter includes tips and exercises for the research student, as well as a complete set of further references.
