Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing)

Geoffrey Boothroyd, Peter Dewhurst, Winston A. Knight

Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) Geoffrey Boothroyd, Peter Dewhurst, Winston A. Knight

Hailed as a groundbreaking and important textbook upon its initial publication, the latest iteration of **Product Design for Manufacture and Assembly** does not rest on those laurels. In addition to the expected updating of data in all chapters, this third edition has been revised to provide a top-notch textbook for university-level courses in product design and manufacturing design. The authors have added a comprehensive set of problems and student assignments to each chapter, making the new edition substantially more useful.

See what's in the Third Edition:

- Updated case studies on the application of DFMA techniques
- Extended versions of the classification schemes of the features of products that influence the difficulty of handling and insertion for manual, high-speed automatic, and robot assembly
- Discussions of changes in the industry such as increased emphasis on the use of surface mount devices
- New data on basic manufacturing processes
- Coverage of powder injection molding

Recognized as international experts on the re-engineering of electro-mechanical products, the methods and guidelines developed by Boothroyd, Dewhurst, and Knight have been documented to provide significant savings in the product development process. Often attributed with creating a revolution in product design, the authors have been working in product design manufacture and assembly for more than 25 years. Based on theory yet highly practical, their text defines the factors that influence the ease of assembly and manufacture of products for a wide range of the basic processes used in industry. It demonstrates how to develop competitive products that are simpler in configuration and easier to manufacture with reduced overall costs.

From reader reviews:

Kimberly Thibault:

This book untitled Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) to be one of several books that best seller in this year, that's because when you read this e-book you can get a lot of benefit onto it. You will easily to buy this specific book in the book shop or you can order it by using online. The publisher in this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Cell phone. So there is no reason to your account to past this publication from your list.

Kathryn Patterson:

Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) can be one of your nice books that are good idea. Many of us recommend that straight away because this reserve has good vocabulary which could increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The article author giving his/her effort to set every word into satisfaction arrangement in writing Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) although doesn't forget the main position, giving the reader the hottest in addition to based confirm resource information that maybe you can be one among it. This great information can certainly drawn you into new stage of crucial contemplating.

Helen Woodson:

As we know that book is important thing to add our understanding for everything. By a guide we can know everything we wish. A book is a set of written, printed, illustrated or maybe blank sheet. Every year ended up being exactly added. This book Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) was filled in relation to science. Spend your free time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading the book. If you know how big benefit from a book, you can really feel enjoy to read a reserve. In the modern era like today, many ways to get book which you wanted.

Hubert Macarthur:

Do you like reading a guide? Confuse to looking for your selected book? Or your book has been rare? Why so many query for the book? But any kind of people feel that they enjoy for reading. Some people likes studying, not only science book but in addition novel and Product Design for Manufacture and Assembly, Third Edition (Manufacturing Engineering and Materials Processing) or maybe others sources were given know-how for you. After you know how the good a book, you feel wish to read more and more. Science reserve was created for teacher or students especially. Those ebooks are helping them to include their knowledge. In different case, beside science guide, any other book likes Product Design for Manufacture and

Assembly, Third Edition (Manufacturing Engineering and Materials Processing) to make your spare time much more colorful. Many types of book like here.
