A Friend of the Earth

A Friend of the Earth T.C. Boyle

In the tradition of **The Tortilla Curtain**, T.C. Boyle blends idealism and satire in a story that addresses the universal questions of human love and the survival of the species. In the year 2025 global warming is a reality, the biosphere has collapsed, and 75-year-old environmentalist Ty Tierwater is eking out a living as care-taker of a pop star's private zoo when his second ex-wife re-enters his life.

Both gritty and surreal, **A Friend of the Earth** represents a high-water mark in Boyle's career-his deep streak of social concern is effortlessly blended here with genuine compassion for his characters and the spirit of sheer exhilarating playfulness readers have come to expect from his work.
