Psychological Testing of Hispanics: Clinical and Intellectual Assessment Kurt F. Geisinger

Fully revised to take into account a new generation of assessment research as well as the dynamic changes within America's Hispanic community, this book provides an up-to-date overview of the clinical testing of Hispanic clients. Today's research on Hispanic clients, their respective cultures and environments, and their psychological health has led to an explosion of measures tailored to their unique needs. This volume provides essential updates on how to use intelligence, neuropsychological, and other clinical measures, and stands as a call to arms to increase awareness, and understanding of a rapidly evolving demographic. This is an important text for practitioners who wish to improve their competency in working with this still underserved population.
